

UITypeEditor

```
classDiagram
    class UITypeEditor
    class ARdevKit_View_SliderEditor["ARdevKit.View.SliderEditor"] {
        +SliderEditor()
        +EditValue()
        +GetEditStyle()
    }
    ARdevKit_View_SliderEditor --|> UITypeEditor
```

The diagram illustrates a class hierarchy. At the top is the 'UITypeEditor' class, represented by a white box with three horizontal compartments. Below it is the 'ARdevKit.View.SliderEditor' class, represented by a grey box with three horizontal compartments. The top compartment of the grey box contains the class name. The bottom compartment contains three public methods: '+ SliderEditor()', '+ EditValue()', and '+ GetEditStyle()'. A blue arrow with an open triangular head points from the top of the 'ARdevKit.View.SliderEditor' box to the bottom of the 'UITypeEditor' box, indicating that 'ARdevKit.View.SliderEditor' inherits from 'UITypeEditor'.

ARdevKit.View.SliderEditor

+ SliderEditor()
+ EditValue()
+ GetEditStyle()
